

re: established business relationship pre-empting the Indiana no call list.

Please do not find in favor of the Consumers Bankers Association. My quality of life (and that of my family) had been considerably improved because of the no call list... Sitting down to dinner and NOT being interrupted by a telemarketing phone call is the rule now NOT the exception.

Should you find in favor of the Consumers Bank Association and feel that the prior business relationship outweighs my right to peace and quiet in my own home, how about requiring that each of the petitioners AND any other business jumping through this loop hole publish the home numbers of ALL of their employees on their corporate website. Since they feel the need to communicate with me at home in the evenings AND since we have this vital business relationship, I would very much like the opportunity to conduct business with them in THEIR HOMES while they are having dinner. Plus, I have lots of extra roll over minutes that I end up wasting each month... I'd love to put them to good use!
